# General Process from Application to Entry

## **Notes Regarding Language Basis**

One of APU's features is the "Japanese-English Dual Language Education" system, whereby classes are taught in both Japanese and English language mediums. Applicants choose their language basis—either "English-basis" or "Japanese basis"—when applying to APU. All students newly enrolling in APU take a placement test for language classes in their non-basis language, and are placed in compulsory language classes at a level appropriate to their proficiency as demonstrated in the test (this does not apply to third-year transfer students).

### **Japanese-basis**

The great majority of domestic students who have graduated from a Japanese senior high school take entrance examinations and enroll on a Japanese basis.

In their first and second years at APU, Japanese-basis domestic students take mainly liberal arts and major education subjects taught in a Japanese medium. At the same time they take English language education subjects with the aim of acquiring English proficiency required to undertake major education subjects taught in an English language medium. As their English improves, they gradually increase the number of English-medium subjects they take.

English language proficiency is not a condition of eligibility for those applying for admission as Japanese-basis domestic students, but the standard level of English proficiency for such students at the time of enrollment is around 45-61 in the TOEFL iBT® TEST, 5.0-5.5 in IELTS (Academic Module), or Grade 2 in the EIKEN® Test in Practical English Proficiency.

Please note that in order to graduate, Japanese-basis domestic students must earn at least 20 credits (out of a total of 124 credits required for graduation) in liberal arts and / or major education subjects taught in an English medium.

### **English-basis**

All entrance examination procedures are conducted entirely in English, from preparation of the application form through to interviews. Students take liberal arts and major education subjects taught in an English medium starting immediately after enrollment. English-basis enrollment is therefore suitable for those who have been educated in an English medium in their junior and senior high school education or equivalent, and those who have spent a significant period of time attending school in an English-speaking country.

English-basis applicants are required to possess a minimum TOEFL iBT® TEST score of 75 or over (or equivalent English ability). However, the standard level of English proficiency for such students at the time of enrollment is typically 80-100 in the TOEFL iBT® TEST, 6.0-6.5 in IELTS (Academic), or Grade Pre-1 in the EIKEN® Test in Practical English Proficiency.

English-basis students are not required to take English language education subjects, but in some cases may be permitted to take subjects in Advanced English and English for Specific Purposes (English for Business, English Project, and Extensive Reading in English).

## **Required Number of Credits for Graduation**

Subject Field	Credit Requirement	Total
Common Education Subjects	At least 40 credits	At least 124 credits
Major Education Subjects	At least 62 credits	

※Common Education Subjects are comprised of Language Education Subjects and Common Liberal Arts Subjects.

※The number of required Language Education and Common Liberal Arts Subjects depends on the language you use to apply to APU.

※The make-up of Major Education Subjects depends on college.

•College of Asia Pacific Studies (APS)	APS Major Education Subjects
•College of International Management (APM)	APM Required Major Education Subjects + APM Major Education Subjects

# April 2022 Enrollment

- If you are residing in Japan on a College Student visa, please take the entrance examination for international students.
- If you are eligible to obtain a College Student visa and wish to take the domestic students entrance examination, please contact the Admissions Office in advance.

# Pathway for Students with Significant Extracurricular Achievements

This method evaluates applicants' English language proficiency acquired between graduation from junior high school and application to APU, and international experiences such as study abroad. It also evaluates a range of activities and achievements in academic, cultural, artistic, sporting, volunteering and other areas, as well as applicants' motivation for pursuing their studies and other activities after enrolling in APU.

APU welcomes applications not only from students capable of achieving a balance between high-level academic and extracurricular activities after enrolling, but also those who, even if they do not continue their current activities, can apply the capabilities fostered through ambitious activities to pursue their life after enrollment pro-actively.

# Credit Transfer approval after admission for Transfer Students

## Credit Transfer

- Second year transfer students may transfer up to 30 credits and third year transfer students may transfer up to 62 credits depending on the credit transfer carried out at the time of enrollment. For successful applicants, the number of transfer credits approved will be determined after a review of academic transcript and syllabi of higher education institution. You will be notified of the number of transfer credits approved when you receive your enrollment procedure documents.
- If you are still taking courses at the time of application, please make sure to submit the final results (official transcript) of these courses to the Office of Domestic Admissions once they have been acquired before enrollment. Your eligibility to enroll at APU may be revoked if you do not submit the final academic transcript. Please note that students must complete a total of 124 credits to graduate from APU.

## Application to transfer Major Credits (Applicable to Third Year Transfer Students Only)

- Please submit the “Application to Transfer Credits as APU Major Subjects”, academic transcript and syllabi of the courses you wish to have approved for credit transfer.
- Syllabus is a document that outlines the goals and content students will be studying in a specific course. It includes information such as course name, course overview, evaluation criteria, goals, length and number of classes, textbooks used for the course, etc. If these information are not included on the syllabus, please submit other documents which have these information.
- If the syllabus is written in a language other than English or Japanese, you must submit an English or Japanese translation together with the original syllabus. Only translations from organization issuing the syllabus, a translation company, or a qualified individual translator will be accepted. Please make sure that the official seal of the translation company or the individual translator’s name, address, contact information, and signature (or stamp) are clearly stated in the translation document before submitting.
- If you are transferring to the College of International Management (APM) from an institution accredited by AACSB, EQUIS, AMBA or EPAS, you do not need to submit a syllabi. Instead, please submit a document stating that the institution has received an accreditation (a copy of the relevant section of the institution’s homepage is sufficient).
- In order to request an approval of credit transfer, please refer to the “Major Education Subjects” section on the “Curriculum Outline” on our APUMate admissions website’s “Second/ Third Year Transfer Enrollment” page.

## Points which need to be considered when transferring as a Third Year Student

- Considering the unique education and job hunting system in Japan, there are cases when second year transfer is more desirable although a student has completed two years of study at a higher education institution before enrolling at APU. Please make sure that you plan thoroughly about your study and job hunting before you apply, taking into consideration the following points.
- In general, it is desirable for third year transfer students to have at least ten credits approved as major education subjects. However, even under this condition, considering the limited time available to spend on clubs, part time jobs, job hunting and other non study activities, it may still be difficult for students to acquire the necessary credits for graduation within two years.
- Usually, job hunting starts from the second half of the third year and may continue until the fourth year. If you wish to do job hunting in Japan, you will need to devote a certain amount of time to job hunting and may therefore be unable to take classes and earn credits necessary to graduate in two years. Considering these points, we strongly recommend that you apply as second year transfer student if you wish to seek employment in Japan.
- Although it is not mandatory for third year transfer students to take Japanese (for English basis students) or English (for Japanese basis students), you can register for these courses if you wish. However, as language subjects require a considerable amount of study time, taking these subjects alongside your major courses may make it difficult for you to graduate within two years. Considering this point, we strongly recommend that you apply as second year transfer student if you would like to take language subjects.
- For details regarding credit transfer, please take a look at the “Second/ Third Year Transfer Enrollment” page on APUMate admissions website ([https://www.apumate.net/admissions\\_guide/english/about\\_h\\_t.html](https://www.apumate.net/admissions_guide/english/about_h_t.html)).
